PROFILE

WordPress (Elementor) Developer with experience building modern, responsive websites. I have over 2 years of experience working with **HTML, CSS, and JavaScript**.
I specialize in developing landing pages and business websites using **Elementor**, with a strong focus on clean **UI**, fast loading speed, and mobile optimization.
I have experience converting **Figma** designs into fully functional WordPress websites, ensuring accurate design implementation and proper performance across different devices and browsers.
I have solid knowledge of **HTML, CSS, and JavaScript**, which allows me to create flexible custom solutions and extend Elementor's functionality.

WORK EXPERIENCE

Developed a responsive website for a client using WordPress (Elementor), HTML, CSS, and JavaScript.
Handled domain setup, deployment, and basic SEO optimization.

EDUCATION

Self-learning and online courses
